1963-64 was $3,766; in 1969-70, the average is $5,817, or an increase of 54.5 percent in six years, compared with the national increase of 40 percent. In terms of average dollar amount scheduled for beginning teachers, the Southeast is 8.9 percent below the national average of $6,383 for districts with enrollments of 6,000 or more.

In 1969-70, average beginning salaries in the Mideast and Great Lakes regions surpassed that in the Far West for the first time since 1963-64.

For further information see: National Education Association, Research Division. *Salary Schedules for Teachers, 1969-70.* Research Report 1969-R13. Washington, D.C.: the Association, 1969. In process.
